You look to us – your insurance agent – to balance good coverage with affordability. But what you may not realize is that our services are backed by a powerful partner.

**Keystone Insurers Group is that partner.**

Keystone unites the best insurance agencies throughout the U.S. into one collective. It provides us with the resources, programs and purchasing power to do our jobs even better.

As an independent agency, we are not employed by an insurance company. We work for you, the client, and partnering with Keystone allows us to pass the national-quality products and services on to you.
The Power of Keystone

- Licensed in 50 states
- More than 265 U.S. partner agencies
- More than $2.3 billion in premium volume
- More than 70 insurance companies to choose from
- Third ranked privately held agency network in the U.S.
- Provides agents with higher education and best practices research
You need an insurance plan that embraces all of the things that make your business unique. As a Keystone partner, we have access to products, services and programs you might not expect from an independent agent. Here’s a brief summary of the solutions we offer.

Get diverse solutions that benefit your business.

**Specialty Programs Division**
Provides custom commercial insurance programs for businesses that have significant coverage and risk management challenges.

**Risk Management Division**
Identifies, evaluates and manages the loss exposures common to large commercial ventures. Keystone can strengthen your existing risk management team, or act as a leased risk management department.

**Risk Solutions Division**
Provides markets for businesses with multi-state, national and international risks. This division allows agents to meet the needs of commercial customers requiring greater expertise or carrier involvement, and provides captives when needed.

**Claims Management Division**
Maintains relationships with high-level insurance company claims executives, providing dedicated assistance when claims occur.
**Financial Services Division**
Provides your business with a total insurance package, including life, annuities, investment securities and retirement planning.

**Benefits Division**
Helps you navigate and manage employee benefit portfolios, maximizing the value of health, life, disability and ancillary programs.

**Bonding Division**
Solutions for all of your bonding needs. Specialties include standard and non-standard construction bonds, commercial bonds, small business administration, and supply bonds.
responsive
Reacting quickly and favorably; receptive and understanding of others' needs.
Get in touch with us to discover how you can start putting these and other Keystone products and services to work for your business.

When you see the Keystone logo next to ours, know that you have a powerful team of experts looking out for your business.

Personal help is just a phone call away.
